PREFATORY NOTE

This List is intended to afford a ready-to-hand guide for the *ordinary* investigator to writings for and against municipal ownership and to material showing conditions in various municipalities. It is not presented as anything like a complete bibliography or as a guide for the specialist, who is, of course, familiar with the literature of his subject. An attempt has been made to represent all shades of opinion, but not all of the writings from any standpoint.

A comprehensive and minute list of authorities on the subject down to January, 1901, is furnished by Robert C. Brooks's "A Bibliography of municipal problems and city conditions," New York, 1901.

Annual surveys of political and municipal legislation, since 1895, by Robert H. Whitten, have been published in the "Annals of the American academy of political and social science," beginning in volume 7.

Synopses of the legislation in regard to municipal functions have been given annually by John A. Fairlie in "New York state library. Review of legislation, 1902," pp. 898-900; 1903, pp. v. 12-v. 24; 1904, pp. v. 6-v. 11.
